

Recovery

Two-way Trade-In & Recycling Program

Recover Promotion Trade-In Instructions:

- 1 Recovery Pack(s), poly liners, pre-paid shipping labels and zip-ties ship to each location you choose. Assemble the self locking Pack and insert liner.
- 2 Follow program guidelines and fill the Pack with Trade-Ins. Report Trade-In information at www.motorolapromotion.com.
- 3 Print submission confirmation page and place it in the Recovery Pack with Traded-In equipment. Use supplied zip-tie to secure the liner and close the Pack.
- 4 Apply one of the pre-paid shipping labels and call UPS™ to request pick up.
- 5 Remember to order additional Recovery Pack(s) at motorolarecovery.com. \$50 will be direct-deducted from Co-op for each Pack. Charges include cost for Recovery Pack and pre-paid shipping label.

Special Instructions:

To ensure a successful Trade-In and Recycling program, please do not include unapproved items in the Recovery Packs.

Approved items for Recovery Trade-In Promotion are business band conventional and trunked two-way radios; VHF; UHF; and 200, 700, 800 and 900 MHz Motorola or competitive brand two-way radios and Push-to-Talk (PTT) cellular products. Push-to-Talk (PTT) cellular phones must include a PTT and quick talk button. **Trade-In radios MUST be equipped with both a volume and channel knob to be eligible.**

Approved items for MTR Trade-In Promotion include the Motorola Control Board and competitive stations.

Where Does It All Go?

Your recyclables are received at a central warehouse, sorted and logged by OEM, model and serial number. Batteries are removed and recycled. Other Two-way products are held for shipment to Motorola or recycled to make other products and materials.
